EDUCATION

Bachelor of Technology (B.Tech) - Computer Science and Engineering (2023 - 2027)

SRM Institute of Science and Technology (SRMIST), Delhi NCR Campus, Ghaziabad, UP

Cumulative Grade Point Average (CGPA): 8.99 / 10

- Core Coursework: Data Structures & Algorithms (DSA), Relational Databases (DBMS), Object-Oriented Programming (OOP), OS, ML.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Node.js, Express.js, Tailwind CSS, Framer Motion, Redux, REST APIs, JWT

Databases & Cloud: MongoDB, PostgreSQL, MySQL, Mongoose, Drizzle ORM, Vercel, Cloudinary

AI/ML & Tools: Scikit-Learn, Pandas, NumPy, Jupyter Notebook, Tesseract OCR, NLP pipelines, Git, GitHub

FEATURED PROJECTS

Smart Campus reporting & management system (MERN Stack) | React, Node.js, Express, MongoDB, Leaflet.js

- Architected issue tracking pipeline with role-based JWT auth (Student/Faculty/Admin) and Cloudinary uploads.
- Implemented spatial issue mapping using Leaflet.js and responsive Tailwind admin dashboard.

CustomerPulse AI - Sentiment Analysis CRM | React, Node.js, MongoDB, Python, Scikit-Learn

- Integrated Python-based Machine Learning microservice for customer feedback classification (Positive/Negative/Neutral).
- Built automated email campaign manager powered by Gemini LLM API and interactive analytics dashboard.

MediBill AI - OCR Medical Bill Price Analyzer | Python, FastAPI, Tesseract OCR, NLP, PostgreSQL

- Designed Computer Vision text extraction pipeline utilizing Tesseract OCR to digitize medical bills.
- Programmed price variance analysis model identifying overcharged line items against benchmark medicine datasets.

PRACTICAL EXPERIENCE

Web Development Intern (Apr 2025 - Jun 2025)

AICTE - EduSkills Academy

- Developed responsive interfaces using HTML5, modern CSS3, and ES6 JavaScript following component patterns.
- Completed 10-week virtual training focusing on DOM manipulation performance and browser cross-compatibility.

PROFESSIONAL CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Oracle Credential)
- Modern Artificial Intelligence Masterclass: Build 6 Projects (Udemy Pro)
- Python for Data Science (Infosys Springboard Certification)
- HackerRank Python (Basic) and Java (Basic) Certified Programmer
